SUMMARY

- ★ Suelen has 12 years of experience in software development and has studied at two of the best institutions in Brazil, ITA and USP. She has worked in multinational companies and startups in several phases. Currently, she seeks to collaborate strategically from a technology point of view.
- ★ During her career, Suelen went through all the stages of software development. From expert positions as Software Developer and Architect, to leading positions as Technical Leader and Agile Coach, dealing with teams of up to 40 people. She has worked in teams focused on product development and others focused on day-to-day incidents. During these 12 years she gained a broad and solid knowledge of processes and best practices in engineering, product development and people management that work in these teams.
- ★ Passionate about knowledge and always willing to improve, Suelen never stopped studying. She has technical course in Data Processing, graduated in Systems Analysis and Development, postgraduate in Strategic Project Management and currently is in the last year of Master in Computer Science.
- ★ Currently collaborates in companies in a strategic way helping in the integration between the business model and technology. In this way, she is able to suggest the use of technologies, processes and practices more appropriate for the evolution of products, systems and teams, without departing from software development.
- ★ In addition to her professional life, Suelen loves to play sports, traveling and being with her family.
